REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed method including an indoor fan unit and refrigerating cycle heat exchanger arranged in an air passage controlling room temperature, detecting room humidity, and performing a drying cycle with a weak heating compressor operation operating at a low rotation speed then performing a subsequent heating operation in which the compressor is stopped and the indoor unit is dried is not found in the prior art either singly or in combination. The closest prior art is considered Breckenridge (US 5,269,076) which discloses a balanced draft vent system with internal humidity measurements. Other prior art references cited in this action are considered to disclose one or more elements of the claimed invention, but not the motivation or suggestions to combine those references to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).
